

IM Portable Pro Unit (PPU) Set Up Instructions

1 THE PPU

Locate the PPU.

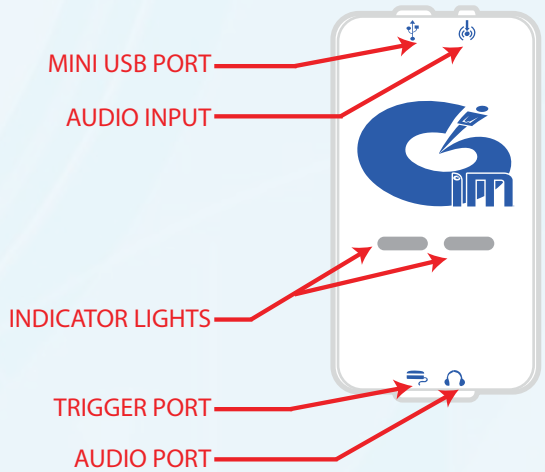

The top of the PPU has:

- Mini USB Port
- Audio Input

The bottom of the PPU has:

- Wired Trigger Port
- Audio Port

The Indicator Lights are located in the center of the PPU.

2 CONNECT THE TRIGGERS

Connect the splitter to the bottom of the PPU in the trigger port

Connect the tap mat to the splitter

Your triggers should look like this

The lights on the PPU will blink **RED** when the button trigger is pressed and blink **WHITE** when the tap mat is touched.

3 PLUG IN THE HEADPHONES

Plug the headphones into the audio port marked with a picture of headphones on the bottom of the PPU

IM Portable Pro Unit (PPU) Set Up Instructions

4 CONNECT THE USB & AUDIO CABLES TO THE PPU

Connect the smaller end of the USB cable to the USB port on the top of the PPU

Connect the audio cable to the Audio Input port on the top of the PPU

5 CONNECT THE USB & AUDIO CABLES TO THE COMPUTER

Connect the larger end of the USB cable into an appropriate port on the Laptop.

The plug will only fit one way, do **NOT** force the USB cable in the wrong way!

6 PPU READY TO USE

When both indicator lights are blue PPU is ready to use.

TROUBLESHOOTING

If both lights are not blue:

- Move USB cable to another available port.
- If that does not work, make sure computer is NOT running off of battery power & unplug and replug USB cable into computer.
