

## Course Description:

The need for ongoing training and education of certified Interactive Metronome providers for clinical application within adult rehabilitation has been identified. This course introduces the certified IM Provider to research in order to support evidence-based practice, as well as advanced practice guidelines and techniques applicable to adult neuro and ortho clinical populations. Photos will be shared to illustrate best practices.

**\*Contact hours are offered pending successful completion of a written exam at the end of the course.**

## Target Audience:

- Recite and apply the seven key facts supporting use of clinical best practices in SLP practice;
- Demonstrate understanding of the underlying principles of clinical IM best practices for adult neuro patients with cognitive & communicative disorders and incorporate them into current SLP practice.

**\*Note: This course covers information that pertains to licensed therapists and therapy assistants. SLPA professionals must practice IM under the supervision of a licensed SLP.**

**Instructor:**

**Andrew Dillen Hartley, OTR/L** graduated from the University of Pretoria, South Africa, school of Occupational Therapy in 1995 and moved to the USA in 1996. He is co-owner of Advanced Therapy Solutions, Inc, an outpatient Physical and Occupational Therapy practice serving clients of all ages in five locations. Mr. Hartley has 14 years of clinical experience and is trained in multiple treatment approaches with both adults and pediatrics. His interests include the treatment of deficits related to stroke, traumatic brain injury, Autism, development disorders, sensory processing disorders, ADHD, ADD and learning disabilities in infants, children and adults. His experience with sensory integration, neuromuscular re-education, brain gym, vision therapy, environmental adaptation, Tai-Chi, yoga and technology based treatment approaches for all ages has served him well as a presenter of certification courses, webinars and professional seminars. Mr. Hartley serves as a clinical advisor for Interactive Metronome and other "Therapy based" companies in research, protocol and practice development areas.
