

Improving Auditory Processing Skills – Case Illustrations

Course Description:

In her previous presentation, titled **Using IM to Improve Auditory Processing**, Dr. Sgarlato discussed the implementation of IM as an integral tool in the remediation of auditory processing disorders, detailing specific assessment tools & treatment methods. This presentation will *build upon* the information she has already shared and will include *more detailed* information and video demonstration of treatment methods she has found to be very effective in the treatment of auditory processing disorders.

***Contact hours are offered pending successful completion of a written exam at the end of the course.**

Target Audience:

This webinar welcomes the following professionals who have completed the Interactive Metronome Certification Course.

- Speech and Language Pathologist
- Speech and Language Pathology Asst
- Audiologist
- Occupational Therapist
- Certified Occupational Therapy Asst
- Licensed Medical, Rehabilitation or Mental Health Professional
- Music Therapist
- Educator

Instructional Level:

Advanced

Learning Outcomes:

Upon completion of this course, participants will be able to:

- Define A.P.D. according to ASHA guidelines;
- Demonstrate clinical reasoning to develop and monitor treatment programs for the remediation of auditory processing disorders;
- Integrate use of timing & rhythm (Interactive Metronome) with clinical best practices for treatment of auditory processing disorders.

***Note: This course covers information that pertains to licensed therapists and therapy assistants. COTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.**

Specific Learning Outcomes for Speech-Language Pathologists & Audiologists:

- Define A.P.D. according to ASHA guidelines;
- Demonstrate clinical reasoning to develop and monitor treatment programs for the remediation of auditory processing disorders;
- Integrate use of timing & rhythm (Interactive Metronome) with clinical best practices for treatment of auditory processing disorders.

***Note: This course covers information that pertains to licensed therapists and therapy assistants. SLPA professionals must practice IM under the supervision of a licensed SLP.**

Instructor:

Lorraine Sgarlato, CCC-A, Au.D., received her doctorate degree in Audiology from the Pennsylvania College of Optometry's School of Audiology. She has been an audiologist for 27 years. She has held the Certificate of Clinical Competence issued by American Speech Hearing Language Association since 1984. Dr. Sgarlato is considered an expert in the field of auditory processing disorder and children with language based learning disabilities. Dr. Sgarlato is on staff at Robert Wood Johnson Hospital in Hamilton New Jersey where she works with a broad population of infants through adult. She performs audiological evaluations, auditory processing testing and therapy, hearing aid fittings, and vestibular testing. Dr. Sgarlato has had a private practice in Yardley Pennsylvania since 1996. She employs teachers and therapists to evaluate and treat children with auditory processing, A.D.H.D., P.D.D., and language learning disabilities. Her practice concentrates on evidence-based therapies and practices which Dr. Sgarlato is certified in providing. These therapies include Fast ForWord Language programs, The Listening Program, Interactive Metronome, Lindamood-Bell programs, as well as other multisensory reading programs. Dr. Sgarlato serves the community as an advocate and expert witness for children
