

Rehabilitating Fine Motor Skills with Interactive Metronome

Course Description:

There are many conditions and a variety of techniques included in clinical management of Fine Motor Skills recovery. Just as the presentation of fine motor impairment may vary in its intensity, so too can the application of the Interactive Metronome to help with its remediation. Key to an IM provider's skill base is a repertoire of modification strategies in order to provide an individualized treatment plan. As length of stay and duration of rehabilitation are under constant scrutiny, it is vital to approach clinical management of patients with fine motor deficits with fresh, creative and effective modalities that measurably demonstrate a patient's progress. This course will provide a broad base of knowledge to cover all clinical environments and to give IM providers the flexibility in approach needed to apply Interactive Metronome to functional goals and transition to the next step in treatment planning. Course material will be in PowerPoint style with easy to reference lists and learning tools. Photographic examples and video media will be presented to illustrate salient points.

Target Audience:

- Occupational Therapist
- Certified Occupational Therapy Asst
- Physical Therapist
- Physical Therapy Asst
- Athletic Trainer
- Licensed Medical Professional

Learning Outcomes:

Upon completion of this course, participants will be able to:

- Address the relevance of IM provision when treating patients with fine motor skill impairments.
- Create on-the-spot treatment setting modifications using the IM program (with an emphasis on efficient time management).
- Develop a repertoire of treatment techniques, incorporating IM in the treatment of fine motor skills in the adult patient;
- Write measurable goals and evaluate functional progress when using IM for treatment of fine motor skills.

***Note: This course covers information that pertains to licensed therapists and therapy assistants. COTAs must practice IM under the supervision of an OT.**

Instructor:

Mary Jones, OTR/L, LMT, CMT graduated from St. Loe's School of Occupational Therapy (UK) in 1986. Has been an Occupational Therapist for 20 (+) years and has been practicing in the USA since 1993.
