

Introduction to Interactive Metronome & Gait Mate: Tools to Improve Cognitive & Motor Function

Course Description:

The IM Gait Mate is a tool designed to assess and treat an individual's planning, sequencing, and motor coordination while ambulating. The Gait Mate provides rhythmic auditory stimulation to facilitate improved gait cadence, step length, and walking speed. Guide sounds provide biofeedback to cue the client if they are off the beat. Gait Mate improves motor planning and sequencing by using neuro-sensory and neuro-motor exercises developed to promote neuroplasticity. The purpose of this course is to introduce the benefits of the Interactive Metronome and Gait Mate when treating clients with planning, sequencing, and coordination impairments.

**Contact hours/CEUs are offered pending successful completion of a written exam at the end of the course.*

Target Audience:

This course welcomes the following professionals who have completed the Interactive Metronome Certification Course.

- Occupational Therapist
- Occupational Therapy Assistant
- Physical Therapist
- Physical Therapy Assistant
- Athletic Trainer
- Licensed Medical Professional

Instructional Level:

Introductory

Learning Outcomes:

Upon completion of this course, participants will be able to:

1. Review timing structures of the brain involved in mental and interval timing skills. Discuss the importance of mental and interval timing skills to efficiently perform activities of daily living.
2. Review desired outcomes when using Gait Mate during therapy sessions.
3. Review a case study highlighting how to incorporate Interactive Metronome and Gait Mate into treatment sessions to improve motor coordination, balance, timing, and gait biomechanics.

**Note: This course covers information that pertains to licensed therapists and therapy assistants. OTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.*

Instructor:

Shelley Thomas, MPT received her physical therapy degree from the Mayo Clinic in 1999 and is currently the Director of Rehabilitation at Idaho Elks Rehabilitation Hospital in Boise, Idaho. She has worked primarily adults with neurological and general medical issues and has embraced incorporating Interactive Metronome and Gait Mate into treatment sessions. She serves as the lead therapist at her facility working with physical, occupational, speech, and recreational therapists to educate them about how to incorporate IM and Gait Mate into their treatments to improve functional outcomes. Shelley has been teaching IM Certification Courses since 2008 and has contributed to the development of the Gait Mate Certification Course.

Instructor Financial Disclosure(s): Shelley has been a member of Interactive Metronome's Clinical Advisory Board, for which she has received an annual honorarium from Interactive Metronome. She is the author/co-author of courses that focus on the clinical application of Interactive Metronome technology, for which she has received honoraria from Interactive Metronome, Inc. She does not receive royalties or any other form of compensation for the continued publication and use of educational materials she has authored/coauthored. Shelley has also been an instructor for Interactive Metronome, for which she has received a fee for teaching each course and reimbursement of travel expenses from Interactive Metronome, Inc. Shelley does not sell or receive compensation for the sale of Interactive Metronome products.

Instructor Nonfinancial Disclosure(s): Shelley is the Director of Rehabilitation at Idaho Elks Rehabilitation Hospital in Boise, Idaho where Interactive Metronome is used in clinical practice.
