

Using IM in the Schools

Course Description:

Many Interactive Metronome (IM) providers work within a variety of school-based settings. For this reason, it is often necessary to vary the set-up and application of IM. One of the key issues discussed among school providers is the need to be creative, flexible and above all, patient in order to get IM up and running in the schools. This course will cover various academic settings and will equip IM providers with the necessary tools for transitioning to the next step in Interactive Metronome use – whether it be related to finding funding, communicating with school administration, or fine-tuning an already established IM program in the schools. **Contact hours/CEUs are offered pending successful completion of a written exam at the end of the course.*

Target Audience:

This course welcomes the following professionals who have completed the Interactive Metronome Certification Course.

- Occupational Therapist
- Occupational Therapy Assistant
- Physical Therapist
- Physical Therapy Assistant
- Licensed Mental Health Professional
- Music Therapist
- Educator

Instructional Level: Introductory

Learning Outcomes:

At the completion of this course, participants will be able to:

1. Communicate a rationale for use of Interactive Metronome (IM) in school service delivery;
2. Determine budgetary and funding needs & communicate to appropriate parties;
3. Develop motivational strategies for the successful implementation of IM with school children;
4. Use strategies to solicit feedback from families and teaching staff in order to adjust the IM program overall and for each individual student as needed.

**Note: This course covers information that pertains to licensed therapists and therapy assistants. OTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.*
