

Get the Most from IM-Home: Tips & Motivational Strategies

Course Description:

This course is designed to help IM Providers of all professional disciplines successfully transition clients from Interactive Metronome (IM) training in the clinic or school setting to training in the home setting with IM Home. Lisa Poe, an experienced IM Provider, IM Instructor, & IM-Home Specialist, will share tips & strategies developed in clinical practice to elicit the most from each client with regard to motivation, compliance & performance in order to achieve optimal results. Lisa will discuss age-specific training considerations, specific tips & motivational strategies, including “tools” that can be found in and around the home to enhance motivation toward training and results. Several photos and videos have been incorporated into this presentation to best illustrate the ideas shared. **Contact hours/ASHA and AOTA CEUs are offered pending successful completion of a written exam at the end of the course.*

Target Audience:

This course welcomes the following professionals who have completed the Interactive Metronome Certification Course.

- Speech and Language Pathologist
- Speech and Language Pathology Assistant

Intermediate

Learning Outcomes:

Upon completion of this course, participants will be able to:

- Identify intrinsic and extrinsic motivators that may impact motivation, compliance & performance for each client being considered for IM-Home training;
- Identify age appropriate considerations that may impact motivation, compliance, and training results & implement appropriate strategies to facilitate optimal results;
- List 2-3 items that can be found in and around the home that can be incorporated into IM-Home training in order to elicit motivation & best performance for optimal outcomes.

**Note: This course covers information that pertains to licensed therapists and therapy assistants. OTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.*

Specific Learning Outcomes for Speech-Language Pathologists & Audiologists:

- Identify intrinsic and extrinsic motivators that may impact motivation, compliance & performance for each client being considered for IM-Home training for the remediation of cognitive, language, and/or reading disorders;
- Identify age appropriate considerations that may impact motivation, compliance, and training results & implement appropriate strategies to facilitate optimal results;
- List 2-3 items that can be found in and around the home that can be incorporated into IM-Home training in order to elicit motivation & best performance for optimal outcomes.

**Note: This course covers information that pertains to licensed therapists and therapy assistants. SLPA professionals must practice IM under the supervision of a licensed SLP.*

Instructor:

Lisa Poe, OTR/L earned her Bachelor's degree in Occupational Therapy from the University of Mississippi Medical Center in 1994. She is founder and owner of A Focused brain, LLC, an Outpatient Occupational Therapy Clinic located in Madison, MS. Lisa has considerable experience treating neurological conditions in both children and adults. Her interests include ADHD, ADD, Autism, Sensory Processing Disorders, Developmental Delay, Learning Disabilities, Stroke, Traumatic Brain Injury, and Spinal Cord Injury. Lisa is trained in multiple treatment approaches such as Constraint Induced Therapy, Integrated Listening System, Handwriting Without Tears, NDT, Bioness, Saebo and Hippotherapy. She is a guest lecturer at UMC Occupational Therapy School, Holmes Community College COTA Program and a variety of local community venues.

Lisa implements the Interactive Metronome and IM-Home with a client- centered functional approach. She is dedicated to helping children & adults achieve their maximum level of function in school, work, home, social & community settings. Lisa has travelled extensively as a National Instructor for Interactive Metronome since August of 2010. She has authored several educational courses for Interactive Metronome and co-authored the IM Fall Risk Reduction Program. As an IM-Home Specialist, Lisa consults with IM Providers of all professional disciplines to help them develop personalized IM-Home programs for clients & families nationally and internationally.
